-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This reissue application is a continuation of reissue application no. 09/094,575 filed on June 12, 1998, where said reissue application is a re-issue of application 08/566,000, filed December 1, 1995. By preliminary amendment, claims 1-38, 40, 46-49, 57, and 60-69 have been canceled. Claims 39, 45, and 56 have been amended. Claims 39, 41-45, 50-56, and 58-59 are currently pending in this case.

§ 1.177 Issuance of multiple reissue patents

2. Applicant is reminded of the continuing obligation under 37 CFR 1.178(b), to timely apprise the Office of any prior or concurrent proceeding in which Patent No. 5,689,559 is or was involved. These proceedings would include interferences, reissues, reexaminations, and litigation.
3. Applicant is further reminded of the continuing obligation under 37 CFR 1.56, to timely apprise the Office of any information which is material to patentability of the claims under consideration in this reissue application.
4. These obligations rest with each individual associated with the filing and prosecution of this application for reissue. See also MPEP §§ 1404, 1442.01 and 1442.04.
5. The Office may reissue a patent as multiple reissue patents. If applicant files more than one application for the reissue of a single patent, each such application must contain or be amended to contain in the first sentence of the specification a notice stating that more than one reissue application has been filed and identifying each of the reissue applications by relationship, application number and filing date.

6. With respect to the instant re-issue application, at least one other re-issue of application 08/566,000, application 09/097,162, filed June 12, 1998 exists. The latter application, 09/097,162 is nowhere referenced in the instant application, but was found by chance by the examiner in this case. Correction is required with respect to application no. 09/097,162 and any other such related applications, reissues, etc as described above.

Information Disclosure Statement

7. The information disclosure statements (IDS) submitted on June 12, 2000 and August 23, 2000 are in compliance with the provisions of 37 CFR 1.97. Accordingly, the examiner is considering the information disclosure statements.

Oath/Declaration

Establishment of Ownership Not Signed by Appropriate Party

8. This application is objected to under 37 CFR 1.172(a) as the assignee has not established its ownership interest in the patent for which reissue is being requested. An assignee must establish its ownership interest in order to support the consent to a reissue application required by 37 CFR 1.172(a). The submission establishing the ownership interest of the assignee is informal. There is no indication of record that the party who signed the submission is an appropriate party to sign on behalf of the assignee. The person who signed the submission establishing ownership interest has failed to state his/her capacity to sign for the corporation or other business entity, and he/she has not been established as being authorized to act on behalf of the assignee.

9. A proper submission establishing ownership interest in the patent, pursuant to 37

CFR 1.172(a), is required in response to this action. In essence, the record for the application must include a statement that the person is empowered to sign a submission establishing ownership interest and/or act on behalf of the assignee. Accordingly, a new submission establishing ownership interest that includes such a statement above, will be considered to be executed by an appropriate official of the assignee. A separately filed paper referencing the previously filed submission establishing ownership interest and containing a proper empowerment statement would also be acceptable.

Drawings

10. The drawings are objected to because some of the copies are illegible, specifically the labeling on figures 6A, 6B, 6C, 6D, 6E, and 6F. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement-drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If

the examiner does not accept the changes, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Amendment To Reissue - 37 CFR 1.173(b)

11. Receipt of the corrected amendment to reissue containing the changes, the status (i.e., pending or canceled), as of the date of the amendment, of all patent claims and of all added claims, and an explanation of the support in the disclosure of the patent for the changes made to the claims.
is hereby acknowledged.

Allowable Subject Matter

12. The allowability of the claims in this application depends on issues that may or may not come up when the office has been apprised of any information that is material to patentability of the claims under consideration in this reissue application.

Conclusion

13. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Cristina Owen Sherr whose telephone number is 571-272-6711. The examiner can normally be reached on 8:30-5:00 Monday through Friday.

14. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Andrew J. Fischer can be reached on 571-272-6779. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
